Hey Vince,

I did a little research and found these two products and got quotes for 5 systems each. It shows 10 in the quote because it is double sided. According to the company it is legal to use in California, but I have an email in to Dave Peters to confirm.

<https://ledlighting-solutions.com/solar-horizontal-rapid-flashing-beacon-system-with-push-button-activation.html> \$14,367 for 5 double sided units

<https://ledlighting-solutions.com/24-push-button-led-flashing-crosswalk-system.html> \$19,193 for 5 double sided units

Of course with a budget of \$30,000 the City can buy 10 of the rapid flashing or 7 of the flashing crosswalk.

Kind regards,

Abigail Palsgaard
