

CALGreen

The California Green Building Code (CALGreen) requires 50 percent of diversion of waste from construction and demolition projects. CALGreen applies to the following:

- All **new construction** of a building regardless of project value.
- Additions to non-residential buildings or structures of at least 1,000 square feet or alterations with an estimated construction cost of at least \$200,000.

If you have a construction or demolition project, please check with your jurisdiction to find out about their Construction and Demolition Recycling Program.

C&D Materials

- 
- Asphalt
 - Concrete
 - Dirt
 - Rock
 - Drywall
 - Metals
 - Wood
 - Brick
 - Tile
 - Stucco
 - Plastics
 - Carpet Padding
 - Carpet Foam
 - Yard Trimmings
 - Roofing Material

Reuse and recycling of C&D materials is one component of a larger holistic practice called sustainable or green building construction. The efficient use of resources is a fundamental tenet of green building construction. This means reducing, reusing, and recycling most if not all materials that remain after a construction or renovation project.

MID VALLEY DISPOSAL

LOCATION•

15300 W Jensen Ave
Kerman, CA 93630

MID VALLEY DISPOSAL RECYCLING & TRANSFER STATION

3 EASY OPTIONS to Dispose of Construction & Demolition Debris

1 Roll-off Containers

Mid Valley Disposal offers 20, 30, and 40 yard roll-off bins serving the Fresno, Madera, Tulare and Kings County areas to collect construction and demolition material (e.g. wood, concrete, and roofing material) from contractors & homeowners. Mid Valley Disposal provides fast & reliable roll-off services at your convenience.

2 Rent-A-Bin Containers

For your small clean-up projects or any oversized items that won't fit in a regular trash container, you can request a temporary rent-a-bin.

3 Recycling & Transfer Station Self-Haul

You may transport your C&D materials generated during a business or residential construction or demolition project to Mid Valley Disposal's Recycling & Transfer Station. Mid Valley Disposal has state of the art sorting equipment to process and recycle your C&D material.

Mid Valley Disposal's Recycling Outreach Specialists are at your service by tracking all weight tickets for all C&D loads from roll-off bins and self-hauls. Once C&D projects have been completed, please inform our Outreach Specialist. The Outreach Specialist will then provide you with an estimated diversion rate for each C&D load hauled to our facility. The diversion rate percentage is required on your C&D application to receive final inspection or a certificate of occupancy by the City Building Department.

Recycled Wood

Mid Valley Disposal's Horizontal Wood Grinder will process wood to produce wood chips that can be used for landscaping, dust control, or animal bedding. For additional information about our wood chips, please contact Mid Valley Disposal at (559)843-2467.

Portable Toilets

Crown Services Co. is committed to provide you and your company with exceptional services in handling all your construction needs serving the Fresno, Madera, Tulare and Kings County areas. For additional information about portable toilets, please contact us at (559)442-0845.
